Subject: FW: Kohler-Andrae bill (AB 588)
Attachments: Senate Amendments 1 (Red) and 2 (Blue) to SB 466 (AB 588).docx

All - Of the several pieces of legislation in Wisconsin potentially impacting air, this is the only one that passed. This one prohibits the use of the Sheboygan Kohler-Andrae air quality monitor in WDNR's state monitoring plan. Then states if EPA disapproves the plan, they can re-submit and include it.

Subject: Kohler-Andrae bill (AB 588)

Good morning everyone,

The Kohler-Andrae monitor bill was passed in the Assembly last night and—having already done the same in the Senate—will head to the Governor for his signature. I believe that both Senate Amendments were also adopted onto the

Assembly version, so the attached bill should be an accurate reflection of what we have. There were no last-minute additions for the RFG (AB 558), state pollutants (AB 588), and I/M bills (AB 555), so barring some March activity from the Assembly those will have to wait until potential reintroduction in the 2019-2020 session.

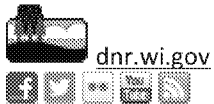

For the two administrative rules still out there, the sunset bill (AB 384) passed the Assembly in November and may still progress to a floor vote in the Senate. And I believe that the guidance bill/TRA (AB 880) has not yet made it out of the Assembly committee. So that's also stalled for the time being.

Best,
James
